

USB3.0 ADAPTERS

USB3.0 To Display Adapters

Because it is 10 times faster than USB 2.0, the USB 3.0 display adapters provide a unique solution to add extra displays to your computer. The adapters work as an external video card allowing you to add up to six additional displays instantly without the hassle of opening your computer case.

You can experience 1080p video playback through the HDMI/VGA interface on SuperSpeed USB3.0 for both work and entertainment.
