

AUDIO CABLES

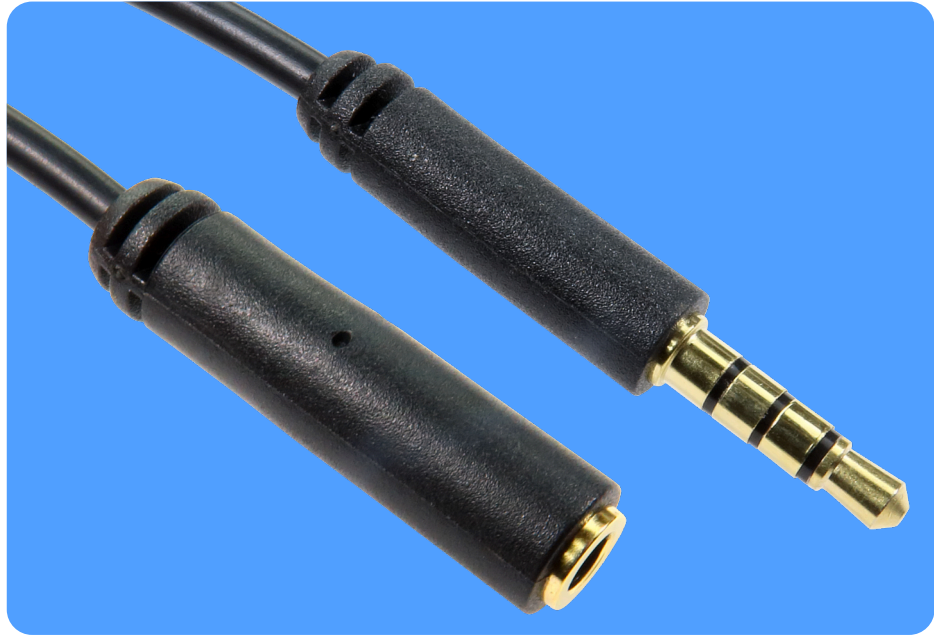

4 Pole 3.5mm Stereo Extension Cable

The 2TT-102-4POLE is a 2 metre 4 pole 3.5mm TRRS extension cable. TRRS cables are usually found on mobile phones because they can carry two-way audio (headphone and mic) allowing you to make calls with compliant headsets.

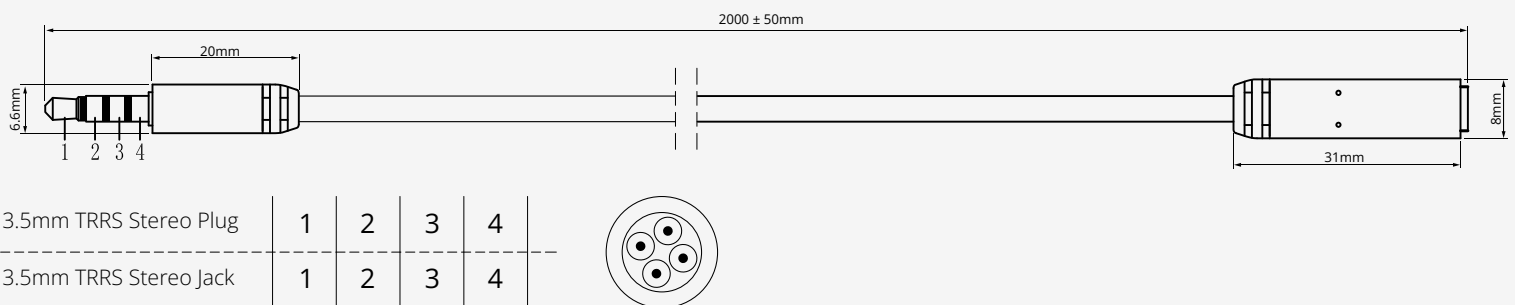

4 Pole connectors are also called "TRRS" connectors because they have 4 sections on the connector, **T**ip, **R**ing, **R**ing, **S**leeve. These sections are separated by 3 black rings.

Specification

- 4 Pole Stereo Plug
- 4 Pole Stereo Socket
- Tip Ring Ring Sleeve Connectors
- Gold Connectors
- Black PVC Jacket
